Professional Summary

Passionate and motivated frontend developer with hands-on experience in JavaScript, TypeScript, React, and Next.js. Actively pursuing further education in frontend development and eager to contribute to innovative projects, leveraging my knowledge in frontend technologies, design tools like Figma, and collaborative development processes.

Skills

Programming languages: JavaScript, TypeScript, HTML5, CSS3, Solidity, Dart, PHP

Libraries/Frameworks: React, NextJS, Material UI, Flutter

Tools: Git/GitHub, RESTful APIs, Figma, Firebase, Tailwind

Languages: English, Spanish, Ukrainian, Russian

Experience

Front-end developer

Jun 2024 – Present

Freelance

(Remote)

- Utilized JavaScript and React to build dynamic user interfaces, ensuring high performance and scalability
- Collaborated with designers to create high-quality mockups and prototypes, enhancing UI/UX.
- Participated in version control processes using Git, maintaining code integrity and facilitating updates.
- Utilized Figma to design and prototype website layouts, leading to more efficient development and smoother client approvals.
- Ensured cross-browser compatibility and adherence to best practices for usability.
- Developed a web application with React and TypeScript, implementing REST architecture with asynchronous functions for seamless interaction with Firebase services.

Projects

The Recipe Compass

- Developed a recipe sharing platform using Firebase. Integrated Firebase Firestore for real-time database management, Firebase Auth for secure authentication, and Firebase Storage for efficient file handling. Wrote clean, maintainable, and well-documented code, adhering to best practices.

Buidl & Borrow

- Participated in a hackathon with a team of developers to create Buidl & Borrow - a decentralized app (dApp) built on Radix. It uses Scrypto for smart contracts, JavaScript for the frontend, Firebase for data, and Tailwind CSS for styling. The dApp enables users to lend and borrow assets in a decentralized manner, providing a secure and transparent financial ecosystem.

Volunteer Experience

Kaleidoscope

Contributed as a Frontend Developer Volunteer at Kaleidoscope, collaborating with the team to enhance website functionality and user experience. Focused on enhancing UI/UX to increase user engagement and satisfaction. Ensured cross-browser compatibility and optimized performance for large data sets.

The Dollar Detectives

Worked on revising the website for The Dollar Detectives. Applied PHP, HTML, CSS, and JavaScript to create visually appealing and user-friendly features.

Education

Yuriy Fedkovych Chernivtsi National University

Sep 2018 – Feb 2021

Bachelor's Degree in Civil Engineering

Chernivtsi, Ukraine

Courses

React - The Complete Guide - Udemy

PHP and MySQL – Calgary Public Library

Creating Web Pages – Calgary Public Library

Front-end developer course – ITVDN
