Professional Summary

Passionate and skilled Frontend Developer with over a year of experience as a freelancer. Proficient in JavaScript, React, and creating scalable, high-performance web applications. Adept at translating business requirements into technical solutions, ensuring cross-browser compatibility, and enhancing user experience through responsive and visually appealing UI designs. Seeking to leverage my skills and experience to contribute to the innovative team at NPAW.

Skills

Programming languages: JavaScript, HTML, CSS, Dart
Libraries: React, Redux, NextJS, ECharts, Material UI, Flutter
Tools: Webpack, NPM, Figma, Photoshop, Git/GitHub, Firebase, SASS, LESS, Tailwind
Languages: English (Upper Intermediate), Spanish (Intermediate), Ukrainian (Native), Russian (Fluent)

Experience

Front-end developer   Jun 2023 – Present
Upwork   (Remote)

- Utilized JavaScript and React to build dynamic user interfaces, ensuring high performance and scalability.
- Collaborated with designers to create high-quality mockups and prototypes, enhancing UI/UX.
- Participated in version control processes using Git, maintaining code integrity and facilitating updates.
- Improved website performance and optimized code for better efficiency and maintainability.
- Ensured cross-browser compatibility and adherence to best practices for usability.
- Provided website maintenance and enhancements, ensuring continuous value delivery to clients.

Projects

Vinum Unicum (In Process)

Repository: Vinum-Unicum

- Created a user-friendly e-commerce website with React and SCSS, integrating Material UI for a consistent design. Implemented responsive design principles to ensure a seamless shopping experience across various devices.

Hackathon Project (YYConnect)

- Participated in a hackathon with a team of developers to create YYConnect. Developed the platform using NextJS and styled with Tailwind CSS. Created a dynamic and responsive user interface with real-time data updates. Implemented Firebase for backend services, including authentication and database management.

Volunteer Experience

Kaleidoscope
Contributed as a Frontend Developer Volunteer at Kaleidoscope, collaborating with the team to enhance website functionality and user experience. Focused on enhancing UI/UX to increase user engagement and satisfaction. Implemented ECharts for data visualization, providing users with interactive and insightful charts. Ensured cross-browser compatibility and optimized performance for large data sets.

The Dollar Detectives
Worked on various projects, applying PHP, HTML, CSS, and JavaScript to create visually appealing and user-friendly features.

Education

Yuriy Fedkovych Chernivtsi National University   Sep 2018 – Jun 2022
Bachelor's Degree in Civil Engineering   Chernivtsi, Ukraine
